# FÉLIX ORAIN

## Web Developer

📞 +33778764454  @ felix.orain@gmail.com  🔗 https://filexf.github.io/felix-portfolio/  📍 France

## EXPERIENCE

### Art Director / Product Developer - YouTube Channel Wizzy Gang
**YouTube**

📅 07/2020 - 09/2024

- Led digital branding efforts and created cohesive design systems, contributing to growing the subscriber base to over 150,000 through engaging content.
- Co-produced the film *Civilization* and designed interactive web pages alongside digital campaigns, attracting over 5,000 viewers in theaters.
- Optimized a WordPress site using advanced SEO techniques, increasing traffic by 33% and improving user retention.
- Developed e-commerce platforms on Shopify and WooCommerce with responsive design and optimized UX, boosting conversion rates.
- Utilized storytelling techniques in video and web production, employing CSS animations and seamless integration across digital platforms.
- Created consistent visuals and thumbnails for better integration on web and social media platforms.

### Designer / Photographer
**Freelance**

📅 07/2020 - Currently

- Designed and published two photo books, managing layout, digital design, and e-commerce integration, generating over 600 sales through a seamless user experience.
- Organized photography exhibitions with interactive portfolio websites, combining design and web development, attracting and informing hundreds of visitors.
- Developed responsive websites for managing professional portfolios on WordPress and Wix, including theme integration, CSS customization, and user experience optimization.

## EDUCATION

### Comprehensive Training in React, Tailwind, TypeScript, and Next.js
**Udemy**

📅 02/2025 - Currently    📍 Online

- In-depth learning of React fundamentals, including components, props, state management, hooks, lifecycle methods, and routing.
- Utilized Tailwind CSS to create modern, responsive designs.
- Introduced TypeScript to enhance code reliability and maintainability through robust static typing.
- Gained advanced skills in Next.js for managing static and dynamic pages, optimizing SEO, and leveraging server-side rendering on the backend.
- Explored Redux for centralized state management in complex applications, facilitating maintenance and collaboration among developers.

### Web Development Bootcamp
**Le Wagon**

📅 09/2024 - 12/2024    📍 Rennes, France

- Graduated from an intensive program focused on designing and deploying dynamic web applications.
- Designed and implemented responsive web interfaces using HTML5, CSS3, JavaScript (ES6), and Tailwind CSS.
- Developed and deployed full-scale applications using Ruby on Rails with PostgreSQL, adhering to MVC architecture and RESTful API principles.
- Applied best practices in agile development, version control with Git, and pair programming methodologies.
- Integrated secure authentication and implemented dynamic front-end features using Ajax and DOM manipulation.
- Created a portfolio website with React.js, hosted on GitHub Pages.

### Online Training in Python Programming Fundamentals
**Stanford University**

📅 08/2024 - 08/2024    📍 Palo Alto, USA

- Successfully completed a 6-week online course based on Stanford's CS106A curriculum, covering Python fundamentals, OOP, and data structures.
- Enhanced algorithmic thinking through weekly exercises focused on clean coding practices, effective debugging, and problem-solving in collaborative environments.

### Bachelor's in Applied Foreign Languages
**University of Rennes 2**

📅 09/2017 - 09/2020    📍 Rennes, France

- Fluent in English, Italian, and French.
- Background in international business and digital communication strategies.

## SUMMARY

I am a web developer with a unique background in foreign languages and photography. I've honed my skills through an intensive bootcamp at 'Le Wagon', where I developed a strong foundation in web development, particularly in building dynamic applications. I am passionate about integrating design with web programming and strive to create innovative, aesthetically pleasing, and user-centered technology products.

## SKILLS

React.js    JavaScript    TypeScript

GitHub    Python    Tailwind    Next.js

Ruby on Rails    Figma    PostgreSQL

HTML/CSS    Vercel    WordPress

Lightroom    Photoshop    InDesign
